Certification: ISO 9001:2008, HACCP, BRC and IFS, FDA

Olive'ssecret is a Greek company that was founded in the late 90's which researches and develops innovative **products**. The company's name Olive'ssecret, - or the Secret of the Olive- was inspired by the olive tree, which is an ancient symbol of the Greek and Cretan diet.

Certification: ISO 9001:2008, ISO 22000:2005, HACCP

Our journey begins with the finest extra virgin olive oil from the acclaimed Kalamata region of Greece. Olive oils are many but EVGE has taken the extra steps to ensure that only the best and distinguished extra virgin olive oil reaches your table from our harvest.

Certification: ISO 22000:2005, KOSHER USDA and DIO, FDA

OUR PARTNERS

Since the creation of the town Agia Paraskevi (17th century), we own the olive groves and we are involved in the olive oil production. The secrets of olive cultivation are carried through generations, and today we find the techniques that are in accordance with the variety of olives, that were used many years ago. In fact, these techniques and varieties have their roots in the Trojan War times.

In 2012 we decided to create the company MAKAROS EDOS in order to introduce a unique product, representing the liaison between the present and the ancient times.

Certification: ISO 22000:2005, HACCP, BIO

In recent years, the firm has an exporting orientation, dedicated to a firm belief based on premium quality and the product characteristics that positively please the senses.

Our meticulous research, experience and expertise enable the firm to constantly expand its product range with the ultimate aim of meeting the modern consumer's demanding daily nutritional needs on an international level. As a result, we have introduced products that combine quality with innovation all in the context of a healthy and balanced diet.

Certification: ISO 22000:2005, HACCP, BIO, FDA

Makaros Edos BIO Extra Virgin Olive Oil from Mytilene

Exclusive Distributor

The olive oil MAKAROS EDOS constitutes an extra virgin olive oil of excellent quality. The proper harvesting period and the little time that interferes from the grove to the mill, gives the olive oil unique organoleptic characteristics and low acidity. The olive oil extraction is done at a temperature that does not exceed 28°C. The olive oil produced is then kept into inox containers under ideal conditions (between 10°C and 15°C, away from direct sun light exposure and any source of heat or humidity) where it rests for at least two months in order to mature. The bottling is done by hand with extreme care, making thus every bottle of MAKAROS EDOS olive oil a unique piece. To assure and to maintain quality, the production is deliberately limited in terms of quantity and every bottle carries a serial number.
